

PANTOPIX stands for intelligent solutions in technical communication. With our many years of expertise, we support companies in optimizing their information processes and ensure maximum added value. Become part of our team and shape the digital future of our customers with us.

For our location in Lindau we are looking for a

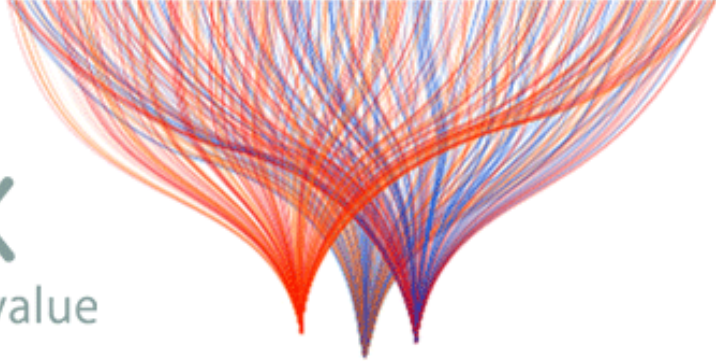

(Junior) Knowledge Engineer (m/f/d) full-time

Your Tasks

- Design, development and programming in the area of knowledge databases, knowledge graphs and semantic data modeling.
- Together with domain experts you formalize knowledge and design ontologies and metadata models
- You work with graph databases, create queries and transform data
- You support our consultants in the projects and extend existing models together with the customer

Your Profile

- You have successfully completed your studies in the field of computer science or a comparable education
- You have profound knowledge in Semantic Web technologies (RDF, SPARQL, SHACL)
- You have knowledge in XML technologies (XSLT, DITA, XPATH) and programming languages (JAVA and / or Python)
- Your strengths include analytical and problem-solving skills, a high level of initiative and a strong understanding of complex processes
- You enjoy working in a motivated team and do not shy away from customer contact
- Reliable communication in German and English is part of your profile

Our Benefits

- Versatile and interesting tasks in an innovative working environment
- Challenging projects in international teams with well-known customers in various industries
- Flexible working hours and mobile working
- Helpful team with experienced colleagues and flat hierarchies

If you have any questions, please contact Franziska Schrempp: +49 (0) 7520 953 61 67.
We look forward to receiving your application at info@pantopix.com.
